J. T. ANDERSON,

Chairman of Senate Committee.

EDWIN NORRIS,

GEO. H. STANTON,

W. J. STEPHENS,

Chairman of House Committee.

E. H. COONEY,

J. R. TOOLE.

Joint Investigating Committee of the Sixth Legislative Assembly, appointed on this 9th day of January, A. D. 1899, for the purpose of investigating charges of bribery alleged to have been committed by certain senatorial candidates and certain lobbyists in the interests of senatorial candidates, met on said 9th day of January, 1899.

Present: Senators Anderson, Norris and Stanton, and Representatives Stephens, Cooney and Toole.

Fred Whiteside was first called, and being duly sworn according to law, deposed and said as follows, to-wit:

Q. State your name, age, occupation and residence.

A. My name is Fred Whiteside, age thirty-seven, residence Kalispell, Montana, occupation, carpenter and contractor.

Q. What, if any, official position do you hold in the State of Montana?

A. I am a State Senator for Flathead County.

Q. Do you know anything of your own knowledge about money having been paid or offered to be paid to members of the Sixth Legislative Assembly by senatorial candidates, or any one representing senatorial candidates?

A. Yes.

Q. Senator Whiteside, you may state in your own way just what has occurred between you and any or all of the senatorial candidates or any of their representatives.

A. I have had various transactions with the senatorial candidates and their agents and others, from which I have learned of the corrupt use that is being made of money in this senatorial contest, and if you will allow me, I will first state how I came to acquire this information.

Six years ago I was in Helena, during the senatorial contest, and I saw the corrupt methods that were practiced at that time. Also in the senatorial fight of 1895, and when I was elected to the Senate last fall, I determined, if possible, to expose anyone who should attempt such practices in this body.

When I arrived in Helena ten days ago, I was looked upon by all of the senatorial candidates as a fit subject for missionary work. I was approached by the agents of all of them, but the representatives of W. A. Clark were the only ones that offered me any money. I apparently fell in with their plans and was soon on the inside. In order to learn all the facts, I got in and worked for Clark, and they regarded me as a valuable man, and told me all that was being done. They offered me ten thousand dollars in cash and a great deal more in promises. John B. Wellcome and Charlie Clark were the managers, while their chief assistants have been A. J. Steele, William McDermott and W. M. Bickford. They were all engaged in buying or trying to buy the support of members for W. A. Clark for United States Senator. All of them have talked it over in my presence, except Mr. Bickford. For some reason he has seemed to be a little shy of me, but I knew through others what he was doing. Besides the men I have named, they had a great many second lieutenants with whom I did not come in contact. I have in my hands now thirty thousand dollars in currency which I will turn over to your committee; five thousand dollars of this was paid to me by John B. Wellcome for my own services, and I will explain in detail how I received the rest of the money. I desired to get some proof, besides the money and my own word, and as I had confidence in the integrity of State Senator Clark of Madison County, I sent Congressman Campbell to him. They had a talk together and Mr. Clark agreed to help me. I met him by appointment in Mr. Campbell's room in the Helena Hotel on the night of January 3rd. I explained to him fully the part I wanted him to take, and then I saw Mr. Wellcome and told him that Senator Clark of Madison County could probably be bought. Mr. Wellcome authorized me to offer him ten thousand dollars, and the next time I saw Wellcome, which was the next day, I told him that Clark would accept it. About nine o'clock on the evening of January 4th, I met Wellcome in the lobby of the Helena Hotel and he asked me to bring Clark up and fix the matter up. We three went up to room 201 and Wellcome placed ten one-thousand dollar bills in a large envelope and it was sealed up. Clark put an endorsement on it, and they gave it to me to hold until Clark should fulfill his part of the agreement, which was that he was to vote for W. A. Clark of Butte for United States Senator whenever they wanted him. If he voted as agreed, I was to give him the money, whether W. A. Clark was elected or not. This is the envelope which contains the money. It has not been opened and has been in my possession ever since I received it.

Senator Whiteside here produced the envelope in question, which was by the committee opened, its contents noted and counted, and same filed herein as Exhibit A.

(Continuing.) I talked the senatorial situation over with Charlie Clark, Wellcome and others very often. We discussed the different members and they told me of the members that had been bought and others with whom they were negotiating. Wellcome said, "Every man who votes for Clark is to be paid, and the man who votes for him without being well paid is a fool." They gave me the names of the members whom they claimed had been bought and the amounts which had been paid or put up for them. The amounts which they paid or put up for each member was from five to ten thousand dollars. They claimed to have bought about an equal number of republicans and democrats, but they would not pay over five thousand dollars for republicans. At the request of Wellcome and Charlie Clark, I approached Senator Myers of Ravalli County, but not in the way they intended. They authorized me to offer him ten thousand dollars. I talked the matter over with Senator Myers and he agreed to help me make the exposures. I afterwards saw Wellcome and told him that Myers would accept the ten thousand dollars. He asked me to take Myers up into a room in the Helena Hotel and he would meet us with the money. This was about seven o'clock on the evening of January 7th. I took Myers to the room and then went to Wellcome's room, but instead of going to see Myers with me, he gave me the money and asked me to fix it with Myers. I then went to Myers and counted out the ten thousand dollars and put it in an envelope and sealed it. I took the envelope and showed it to Wellcome. The understanding was that I was to keep the money until Myers voted for Clark, when I was to turn it over to him. This is the envelope which contains the money. It is still sealed and has been in my possession ever since I received it.

The envelope referred to by Senator Whiteside was here presented by him and opened in the presence of the committee, and its contents noted and marked Exhibit B hereof. The contents of said envelope was found to be ten thousand dollars in currency.

(Continuing.) There seemed to be no end to the supply of money. I think they expected to use nearly a million dollars, and as near as I can judge have already paid out about two hundred thousand dollars; a considerable portion of this money was absorbed by the second lieutenants who handled it. Some of it was paid to members, but the larger portion of it was deposited with third parties, to be held in escrow. They ran short of money several times, because large-sized bills were hard to get. The most of it was in one-thousand dollar bills, some of five hundred and some of fifty and one hundred. Wellcome said that W. A. Clark had instructed them to go in and win, no matter what it cost. They generally paid five hundred or a thousand dollars down and the balance was placed in the hands of a third party, to be paid to the member after he had given his support to W. A. Clark for United States Senator. It was not contingent upon Clark's election.

After I had received the first money from Wellcome, I went to W. G. Conrad and also to John R. Toole, representing Mr. Matts, and intimated to them that the Clark people were using money. I did this in order to give them a chance to make me an offer of money, but they both stated that they would not use a dollar in that way. I did not consult with any one about going into this thing, but did it entirely upon my own responsibility. I wanted to catch every man who was concerned in such work and my object was to break up the band of boodlers that have so long infested this State. State Senator Clark and Senator Myers both helped me for the sole purpose of making this exposure, and not for any hope of gain or reward for themselves. I also talked the matter over a number of times with Representative Garr of Flathead County. He said he had been offered money and I advised him to tell them that he would take it, and to have them place it in my hands. He went up to see Wellcome in his room on Sunday, January 8th. When he came down he said Wellcome had promised to place the money in my hands the next day. The following day I saw Wellcome in his room and he gave me five one-thousand dollar bills for Garr. It was at this time he gave me the five thousand dollars for myself. As soon as I received the money, I went down and took Garr into another room and put the five thousand dollars into an envelope and sealed it and had Mr. Garr sign his initials on the back of it. This is the envelope which contains that money. It has not been opened and has been in my possession ever since I received it.

The envelope here referred to was presented to the committee by Mr. Whiteside, and by the committee opened, its contents noted, and the same is filed herewith as a part hereof and marked Exhibit C. The contents of said envelope were five one-thousand dollar bills.

(Continuing.) I also put the five thousand dollars which I received for myself in an envelope and sealed it and put my initials, "F. W." on the back of the envelope. Here is the envelope. It has not been opened, and has been in my possession all the time.

The envelope referred to was here presented by Senator Whiteside to the committee, was by the committee opened, its contents noted and marked "Exhibit D." Its contents was found to be five one-thousand dollar bills.

(Continuing.) I do not think W. A. Clark knew all the details but he knew in a general way what was being done by Wellcome and others, for in talking over the different members with him, he spoke of Senator Anderson and said that he could not be influenced with money like some of the other members. I have never had any ill will toward any of the persons about whom I have testified, and I was not doing this in the interest of any other senatorial candidate. In fact, I did not let any of them know what I was doing. I would have caught the others if they had been using money. At least that was my intention, and I believe I could have done it.

Q. Mr. Whiteside, when did you arrive in Helena.

A. On Friday morning before the opening of the session—December 30th.

Q. Had you taken this matter up with Mr. Wellcome and others before coming here or had any conversation with them concerning these matters which you have testified to?

A. Only in a general way. I had not been offered any money; no promises had been made.

Q. When were you first offered money by Mr. Wellcome; or others on behalf of W. A. Clark of Butte?

A. It was about Sunday, January 1st; I would not be positive about the date, though.

Q. For whom was John B. Wellcome working or representing?

A. He claimed to be representing W. A. Clark of Butte.

Q. Do you know of your own knowledge whether or not he was representing Mr. Clark of Butte?

A. Yes, I think I do.

Q. Now, explain how you know that.

A. From conversations had with Mr. Clark himself.

Q. You have had conversations with W. A. Clark of Butte during the last few days, have you?

A. Yes.

Q. During that time was Mr. Wellcome present or in consultation with Mr. Clark?

A. He was.

Q. So then you are certain that Mr. Wellcome was representing Mr. Clark with the knowledge of Mr. Clark.

A. Yes, sir.

Q. Was Mr. William McDermott of Butte doing the same?

A. Yes, sir.

Q. What do you know about Mr. Bickford representing Mr. Clark?

A. Only what I was told by others.

Q. You have stated in your testimony here that your sole object was for the purpose of exposing the boodlers, and not with any purpose of making any pecuniary gain for yourself. Is that correct?

A. Yes, sir.

Q. Have you taken anyone else into your confidence in this matter outside of A. J. Campbell, W. A. Clark of Madison County, Senator Myers of Ravalli County, and Representative Garr of Flathead?

A. I have taken a number into my confidence to a limited extent, as far as necessary to secure their assistance.

Q. Then Clark of Madison, Myers of Ravalli and Garr of Flathead are the members for whom you have received money from Wellcome to purchase their votes for W. A. Clark of Butte for the United States Senate?

A. Yes, sir; and myself.

Q. Under an agreement with these three gentlemen to co-operate with you for the purpose of exposing this bribery business?

A. Yes, sir.

Q. Then these three gentlemen acted only for the purpose of exposure and not for the purpose of keeping money for their own use. Is that so or not?

A. Yes, sir.

Q. And you accepted this money for yourself and also for them, not with the purpose of keeping it, but only for the purpose of exposure?

A. Yes, sir.

Q. At whose suggestion or at whose instance, if anyone, did you undertake to carry out this idea of exposing the boodlers?

A. No one's but myself.

Q. Then you acted upon your own responsibility and at your own instance?

A. I did, entirely.

Q. Are there any other matters you desire to present at this time concerning this question?

A. Yes, there is one matter bearing on this question I wish to mention to the committee. Mr. William McDermott of Butte stated to me several times that he would kill anyone who divulged anything that had occurred in this matter.

Q. Then William McDermott was acquainted with what had occurred and what you have testified to before?

A. In a general way, he did.

Q. Mr. Whiteside, do you know of any of the other senatorial candidates using or offering to use money or other valuable thing for the purchase of votes?

A. I do not.

Q. Do you know of any other senatorial candidates, or parties purporting to represent them, who have paid or promised to pay, or who have offered any money or other valuable thing to secure votes for any candidate?

A. I do not.

Q. You say you have approached Mr. John R. Toole, representing Senator Matts?

A. Yes.

Q. And he made you no offer?

A. No, he stated they had no money for that purpose.

Q. You say in your testimony that you have also approached W. G. Conrad?

A. Yes, sir.

Q. Did he offer you any money or make you any promises of compensation at all, or in any way?

A. He did not. He said he would not use any money in that way.

Q. Will you please state again who it was who gave you the money which has been exhibited here to this committee?

A. John B. Wellcome.

FRED WHITESIDE.

W. A. Clark, being first duly sworn, deposes and says:

Q. State your name, age, residence and occupation.

A. W. A. Clark, age thirty-six, occupation lawyer, residence Virginia City, Montana.

Q. What official position, if any, do you hold in the State of Montana?

A. I am State Senator from Madison County.

Q. Senator Clark, have you heard the testimony of Senator Whiteside produced before this committee?

A. I have.

Q. You may state fully any information you may have concerning the matters testified to by him.

A. I arrived in Helena on the 31st day of December, 1898. I had heard considerable talk about money being used by senatorial candidates. On the 3rd day of January I had an interview with Congressman Campbell, in which he informed me that money was being used by senatorial candidates and that the Clark people, because of the fact that I had not declared myself for any candidate, were figuring on buying me. Mr. Campbell then detailed to me what Mr. Whiteside was doing in connection with ferreting out cases of bribery and wanted me to co-operate with Whiteside in giving evidence to expose persons who were paying money to get votes for the senatorial candidates. I took the matter under advisement for about a day and finally consented to go into the scheme to expose the persons who were buying votes. Mr. A. J. Campbell then sent Mr. Whiteside to me and we met in room 115 at the Helena Hotel and talked over the details and mode of procedure. It was finally agreed between Mr. Whiteside and myself that Mr. Whiteside should go to the Clark people and inform them that my vote could be purchased for Mr. Clark for the sum of ten thousand dollars, the money to be left with Mr. Whiteside and to be delivered to me when I had delivered my vote for Mr. Clark for Senator. The next day Mr. Whiteside came to me and we talked the matter over again and I insisted that I would deal with nobody in the matter but W. A. Clark of Butte himself. The matter ran along that afternoon, and it became necessary for me to leave the city and it became a matter of doubt whether I could get to see Mr. Clark personally. Finally Mr. Whiteside came to me and told me that Mr. Wellcome wanted to see me and to go to room 207 in the Helena Hotel. I went

to room 207 and found Mr. Wellcome there and Mr. A. J. Steele. Mr. Steele left and Wellcome and myself proceeded to talk over the senatorial situation. He stated to me that they wanted my vote and influence for Mr. Clark, and that they wanted it hard. I asked Mr. Wellcome what there was in it, and he said ten thousand dollars. I told him all right; that they could have my vote when they produced the money and deposited it in Mr. Whiteside's hands, to be paid to me when I had complied with the conditions which they named. These conditions were that I was to vote for W. A. Clark of Butte as long as they requested it, or until they saw there was no chance for election to the United States Senate. Wellcome said to me, "I haven't got the currency now; we have paid out so much and have used up all the big bills we could find in the Helena banks, but it is all right; we will turn the money over to Whiteside for you." I told him I had no doubt that they would, but I wasn't doing business in that way, and they would have to produce the money and let me count it to see that it was right and I would seal it up and turn it over to Whiteside in his presence, after marking the envelope so that I could identify it in case anything happened to Whiteside. Mr. Wellcome then said that the "old man," (meaning W. A. Clark of Butte) would be in on the evening train and he would bring with him a lot of currency in large bills, and that he would see me again that evening and fix it up. I then left the room and about half past 9 or 10 o'clock that night, on January 4th, 1899, Whiteside came to me and said that Wellcome wanted to see me. Mr. Whiteside and myself went together to room 201 in the Helena Hotel, and after talking a little while Mr. Wellcome took me over into the corner, took an envelope out of his pocket, took out a bunch of bills and said there was ten thousand dollars there. I took the bills and counted them over and there was ten one-thousand dollar bills. I placed them back in the envelope, sealed the envelope, and wrote my initials on the seal flap. I then wrote across one end of the envelope the words, "The property of W. A. Clark;" under that the words, "To be delivered to him under understood conditions," and then spread a large blot of ink on the envelope as an additional mark of identification. I then took the envelope and in Mr. Wellcome's presence delivered it to Mr. Whiteside. Mr. Wellcome then wanted me to go and see Representatives Paul and Metlin of Beaverhead County, and see if I couldn't get them to vote for Mr. Clark. This I agreed to do, but I never did it. I then left the room and left Mr. Whiteside and Mr. Wellcome there.

Q. Senator Clark, have you stated fully all you know about this matter?

A. I have.

Q. Have you had any other offers to buy your vote for a candidate for the United States Senate other than as you have above detailed?

A. I have not.

Q. Do you know of your own knowledge of other bribes being offered or taken to influence a vote for United States Senator?

A. I do not.

Q. What object and purpose did you have in view in your negotiations and dealings with Mr. Wellcome?

A. My object was to secure evidence to show that money was being used to bribe members of the Legislature and to influence their vote on the senatorship.

Q. Senator Clark, you may examine the envelope I hand you and state whether or not it was the one that was delivered to you by Mr. Wellcome and by you delivered to Senator Whiteside.

A. It is. The writing on the envelope is that put there by me in Mr. Wellcome's presence and after he had delivered it to me.

The witness now examines the envelope and contents, and the envelope contains ten one-thousand dollar bills.

The envelope and contents is also offered and received in evidence as an exhibit to the above evidence of said W. A. Clark.

W. A. CLARK.

Albert J. Campbell, being duly sworn, deposes and says:

Q. State your residence, age and occupation.

A. I reside at Butte, Montana, age forty-one, occupation lawyer.

Q. Mr. Campbell, what official position, if any, do you hold at the present time?

A. Not any. I am congressman-elect.

Q. When did you arrive in Helena?

A. On Friday, the 30th day of December, 1898.

Q. Have you any knowledge of any actions on the part of Senator Whiteside and Senator Clark with the view of exposing corrupt practices in connection with the contest for United States Senator? If so, you may state briefly the facts and circumstances thereof.

A. I think it was on the 2nd day of January, Mr. Whiteside came to me and informed me that the Clark people wished him to see if he could purchase the vote of Senator Clark of Madison County and requested me to see Senator Clark and see if he was willing to aid him in exposing the attempted bribery. He then detailed to me the part that he desired Senator Clark to act, and I then went to Mr. Clark, took him to my room in the hotel and outlined a policy that he was requested to pursue. Mr. Clark said that while he was willing to take hold and expose the bribery, that he did not know that he wanted to take that part. He said that he would let me know the next morning. In the morning I met him in the Senate chamber, and he told me that he was willing to do it. I don't remember whether I sent him to Mr. Whiteside or not, but I did make arrangements for a meeting in my room, No. 115, in the Helena Hotel. I afterwards saw Mr.

Clark and he told me that he and Mr. Whiteside had agreed upon the mode of procedure, and on the night that Mr. Clark went away he told me that Mr. Wellcome had paid him ten thousand dollars, to be left in Mr. Whiteside's hands under certain conditions, and that he and Mr. Whiteside intended to return the money into the House of Representatives or Senate.

A. J. CAMPBELL.

Henry L. Myers, being first duly sworn, deposes and says:

Q. State your name, age, residence and occupation.

A. Henry L. Myers, age thirty-six years, residence Hamilton, Montana, occupation lawyer.

Q. What official position do you hold at present time, if any?

A. State Senator for Ravalli County, Montana.

Q. When did you arrive in Helena?

A. December 30, 1898.

Q. Prior to your arrival in Helena, had you heard any rumors of bribery in connection with the selection of a United States Senator for Montana?

A. Nothing definite.

Q. Were you interviewed after your arrival in Helena by any candidates or parties representing candidates for the United States Senate, and if so, state by whom.

A. Yes, by a good many, in a general way.

Q. Was there at any time any suggestion made to you as to the purchase of your vote for any candidate for the United States Senate?

A. By Senator Whiteside, but not with the view of delivering it.

Q. Did you have any conversation with Mr. Whiteside relative to entering into a scheme to expose certain corrupt practices? If so, you may detail the circumstances thereof.

A. Last Tuesday Senator Whiteside asked me to go to his room with him at the Hotel Warren in this city, and I went with him. When we got there, Senator Whiteside said that W. A. Clark of Butte was corruptly using a great deal of money in his senatorial fight, and that he (Senator Whiteside) had been offered the sum of ten thousand dollars by agents of W. A. Clark of Butte, to get his vote for Clark for United States Senator, and that he could get the same sum offered to me for my vote for W. A. Clark, and that he was authorized to make that offer to me, and that he could get the money for my vote put up with him to hold pending my vote, for the purpose of getting evidence of bribery. He spoke of the advisability of our taking up the proposition and getting the money put into his hands in order to expose the corruption. I told Senator Whiteside that I would never, under

any circumstances, vote for W. A. Clark for the United States Senate, and that I had made up my mind to have nothing to do with him or his money, but as to this proposition, that I would have to consider it a while, as it had never occurred to me before and I did not care to go into it hastily. He asked me to think it over, and I told him I would. I thought the matter over for several days, and last Saturday morning I told a friend of mine, in whose judgment I had great confidence, that I had an opportunity to get ten thousand dollars of W. A. Clark's money deposited in the hands of another party, for the purpose of influencing my vote for United States Senator, and of exposing the deal in connection with the party who would agree to hold the money, but that I was doubtful about going into it, as it would be a disagreeable piece of business. He advised me to go ahead with the matter and expose the corruption and advised me that it was my duty to the people of Montana to do so. I then determined to go into the matter for the purpose of exposure, and to co-operate with Senator Whiteside. I saw Senator Whiteside Saturday forenoon and told him that I did not care, unless necessary, to meet W. A. Clark or any of his people, and that I had no promises to make, but that, for the purposes of exposure, he could go to the agents of W. A. Clark, who had made this proposition to him, and tell them for me that if they wanted to put the sum of ten thousand dollars in Senator Whiteside's hands, on the condition that if I voted for W. A. Clark for United States Senator the money was to be at my disposal, and otherwise not, they could do so. I saw Senator Whiteside Saturday afternoon again. He said that he had seen Mr. Wellcome and that Mr. Wellcome had agreed to deposit ten thousand dollars with him on those conditions, and that it would be done at the Helena Hotel that evening after dinner. Senator Whiteside said it would be necessary for me to go to a room in the Hotel Helena in order to see the money deposited, and for me to meet him again at the Hotel Helena that evening. I went to the Hotel Helena again that evening and met Senator Whiteside, who asked me to go upstairs to a room with him. I went up to a room in the Helena Hotel with Senator Whiteside. I do not know the number of the room, nor whose room it was. There was no one else in there. Senator Whiteside said he would go into another room and get Mr. Wellcome and bring him in with the money. Senator Whiteside went out and came back in a few minutes. He said Mr. Wellcome was busy and would not come in. Senator Whiteside thereupon drew out of his pocket a large envelope and a roll of money, which he said Wellcome had sent in by him. Senator Whiteside counted the money in my presence, and it amounted to the sum of ten thousand dollars. He put the money in the envelope and sealed the envelope and said it would be necessary for me to put my initials on the back of the envelope in order to identify it in evidence. I took a pen and ink and wrote my initials on the back of the envelope. Senator Whiteside put the envelope in his pocket, and we went down, and that is the last I have seen of it until to-night.

Q. Senator Myers, you may examine Exhibit B and state whether or not it is the envelope and contents that you say were delivered to you by Senator Whiteside.

A. I have examined it and it is the same.

HENRY L. MYERS.

Senator Eggleston moved, seconded by Senator Stanton, that the report of the special committee be adopted and that the committee be continued. The motion prevailed.

Moved by Toole, seconded by Paul, that the money mentioned in the report of the Joint Investigating Committee and now in the hands of the President of the Joint Assembly, be deposited by the chairman of the Joint Investigating Committee with the State Treasurer and his receipt be taken therefor.

COMMUNICATIONS.

The following communication was received and read:

Headquarters National Live Stock Association,
Denver, Colo., January 6, 1899.

To the Honorable Speaker, House of Representatives, Helena, Montana.

Dear Sir—I take pleasure in advising you that the Second Annual Convention of the National Live Stock Association of the United States will be held in Denver, January 24th to 27th, inclusive, and I am instructed by the executive committee of this organization to extend an urgent invitation to the Senate and House of Representatives of the State of Montana to be present on this occasion. We respectfully urge your immediate attention and reply to this invitation, especially from the fact that a great many men who are engaged in some branch of the live stock industry are either members of your Assembly, or interested in some proposed legislation which will make it impossible for them to be here unless your Legislature adjourns for that week.

The objects of this organization are well known, and its growth during one year has been phenomenal. Its primary aim is to centralize all of the live stock interests in the United States into a national organization.

We shall attempt at the coming convention to agree upon a uniform brand law for the entire western country, for a uniform bounty law, for appropriate legislation with reference to the relations of the United States and Old Mexico, and many other questions peculiarly interesting to men engaged in growing or handling live stock.

Denver has extended a very cordial invitation to the representatives of all the great live stock organizations of the country to be present. We believe the railroads will grant us a low rate, with a 20-day limit. The hotels have also given reduced rates, and there will be "free and unlimited" entertainment for all guests attending.

As several of the Assemblies of Western States are seriously considering the proposition to attend, we sincerely trust your honorable body will find it advisable, as well as convenient, to accept our invitation.

Very respectfully yours,

JOHN W. SPRINGER,
President.

C. F. MARTIN,

These bills, with the exception of Claim 22 in the 1897 and 1898 claims, which was approved by a majority of the board and disapproved by myself, have all been approved by the Board of Examiners, and I earnestly recommend that your honorable body take them under consideration and make appropriations for their payment early in the session, that the closing days of the Assembly may be given up to matters requiring greater consideration.

COMMUNICATIONS.

The following communications were received:

Helena, January 21st, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

I herewith transmit estimates of money needed to run the prison, asylum and educational institutions, with the exception of the School of Mines at Butte, which estimate I have not received. You will note that in several instances I have cut out and reduced the estimates made by the officers of

the several institutions. I am constrained to believe we should not continually be increasing the salary list or expending so lavishly at this time for equipment. Our educators desire everything to be as perfect in a new state with young institutions as the same institutions in the East have reached with millions back of them and ages for bringing equipment to its present proficiency. To expect so much at once is out of reason and not in keeping with our income.

Very respectfully,

ROB'T B. SMITH,
Governor.

The communication and accompanying documents were referred to the Committee on Appropriations.

Helena, Montana, January 19th, 1899.

Mr. Speaker:

MESSAGES FROM THE GOVERNOR.

The following message from his Excellency, the Governor, was received and read:

Helena, January 25th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

Under the present law the Capitol Building Commission can only expend \$300,000.00 in building and furnishing the State Capitol. In order to secure a fire proof building of sufficient size to accommodate the needs of the State, the commission was compelled to specify imitation marble for the wainscoting in the corridors and public halls and court rooms. We have felt and still feel that our State Capitol should have a better finish and trimming. We have, therefore, had our architects make an accurate itemized bill of the extra cost of putting Utah onyx in as wainscoting in the halls, corridors and other public rooms. The separate cost for each corridor, hall and room mentioned is specified in the accompanying list. The total cost for all halls, corridors and rooms where it is desirable to use onyx trimming is \$18,944.05. I would also suggest that there is no fund available sufficient to grade and beautify our Capitol grounds. The cost, according to the estimate of a competent engineer, is about \$12,000.00.

I trust you will see your way clear to provide a sufficient revenue and make an appropriation to meet these items. Otherwise our building will not present that splendid appearance and artistic finish which should mark the taste, culture and refinement of our people.

Very respectfully,

ROB'T B. SMITH,
Governor.

The message was referred to the Committee on Public Buildings and Grounds.

January 26th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

Some time since I called the attention of certain of your members to the fact that a steam heating plant would be required in the Reform School at Miles City, and a similar plant at the Orphans' Home at Twin Bridges. I transmit herewith a letter from Judge H. C. Smith, bearing upon the Reform School and its needs, which emphasizes what I have said.

Very respectfully,

ROB'T B. SMITH,
Governor.

The message and accompanying papers were referred to the Committee on State Institutions, Public Buildings and Grounds.

Your Committee on Education desires to report as follows:

There is in the room of said committee a machine that is designated by the Honorable Secretary of State as a Typewriter, but which seems to be a cross between a threshing machine and a patent clothes wringer. This conclusion as to the identity of the machine is reached after a careful observation and after consideration of the testimony of seven young ladies who have attempted to operate the machine.

Your committee would further report that repeated requests and requisitions have been made upon said Secretary of State for a typewriter but all of these have been disregarded. In view of these facts your committee respectfully request that the Sergeant at Arms be clothed with proper authority to procure a typewriting machine or, in lieu of that, that the committee be empowered to employ a male clerk who shall be a past master in the art and science of profanity, as it is the belief of your committee that the present machine can be successfully operated only by a person so qualified.

MESSAGES FROM THE GOVERNOR.

The following messages were received and read:

Helena, Montana, February 13th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

The Legislative Session is now rapidly drawing to a close and so far very little has been done toward improving the revenues for the General Fund of the State. The appropriations you are called upon to make should warn you of the absolute necessity of prompt and intelligent action to the end that the revenue may be increased to meet these imperative needs. I suggsted in my message several methods of increasing the revenue without imposing additional taxation, also several features wherein the expenses of the State could be reduced. If, however, these recommendations cannot

be enacted into laws, I would suggest that you pass an income tax law, taxing all incomes in excess of one thousand dollars a certain per cent, say one-half of one per cent. This would produce a very considerable revenue and there is certainly no more just or equitable system of taxation than this. None are so able to pay as those who have incomes, and the larger the income the more abundantly should each good citizen be willing to contribute to the support of the State that guarantees protection to his rights both of person and property. Before it is too late you should also provide for the proper application of the thirty thousand dollars covered into the treasury on account of charges of bribery. A reasonable time should be allowed for any one desiring to prove ownership to do so, and, after the expiration of that time, if not claimed, it should revert to the State for such purposes as in your wisdom may seem fit and proper.

Very respectfully,

ROB'T B. SMITH,
Governor.

On motion of Wilson, seconded by Paul, the communication was referred to the Committee on Ways and Means.

Helena, Montana, February 13th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

On the 10th of this present month the Montana Regiment of Volunteers were again called upon to do battle for "Our Flag," and from the press reports it is shown that they bore the burden of the fight and acquitted themselves gallantly. Twenty-four officers and men were wounded and one private killed. I trust your body will take such action as may be appropriate in public recognition of their gallant conduct.

Very respectfully,

ROB'T B. SMITH,
Governor.

On motion of Lindsay, seconded by Hedges, the Speaker appointed a special committee of three to draft suitable resolutions to conform thereto.

HOUSE JOINT RESOLUTION NO. —.

Be it Resolved, By the House of Representatives of the Sixth Legislative Assembly of Montana, the Senate concurring:

While regretting the necessity of turning the arms intended for their deliverance from Spanish oppression against the misguided natives of the Philippine Islands, the people of Montana have learned with grateful pride of the conspicuous gallantry displayed by the First Regiment of Montana Volunteers in recent conflicts near Manila.

Not only for its transcendent importance to our fast growing commerce on the Pacific, nor for the prodigal wealth of forest, soil and mines in this island empire of sunshine and showers is it precious to us, but also as the scene of American valor on sea and land, having been baptized with the blood of Montana's soldiery.

And be it Resolved, That in further appreciation of the honor conferred upon our State by the services and sacrifices of our brave volunteers that the House Committee on Appropriations is hereby directed to prepare a bill appropriating the sum of \$20,000 out of the unclaimed moneys in the State Treasury to be devoted to regimental uses of the Montana Volunteers, that the dead may rest in honored graves, that the wounded may be afforded additional comforts to aid in their recovery, and that all may have some practical evidence of our grateful remembrance.

WILLIAM LINDSAY.

House Bill No. 37, being an act entitled "An act to repeal an act entitled "An act to prevent the sale of liquors on credit," approved March 1st, 1897.

Very respectfully,

ROB'T B. SMITH,
Governor.

Helena, Montana, February 16th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

I am constrained to return without my approval House Bill No. 22, a bill appropriating \$405.70 for the relief of William J. Fransham for care and attention furnished to John A. Allen, for the following reasons:

Allen was deputy sheriff of Gallatin County at the time he received the wound from which he died. He was an officer in the employ of the county, and if while in the discharge of his duty he became injured or incapacitated so that he could not provide for himself, he was, under Section 3203 of the Political Code, entitled to support and care from the county. Every obligation, both moral and legal, rests upon the county to pay this claim, or at least any just claim for the care and attention to Allen, and there is no obligation on the State to furnish such aid. Again, this bill is in direct conflict with Section 29, Article V, of the Constitution, which declares: "No bill shall be passed giving any extra compensation to any public officer, servant or employe, agent or contractor, after services shall have been rendered or contract made, nor providing for the payment of any claim made against the State without previous authority of law, except as may be otherwise provided herein."

There is no pretence in this case that there was any contract or law or authority for this claim, previous to the rendition of the services, made with any one authorized to contract the indebtedness.

This claim being clearly in violation of the Constitution, and a claim that should be paid by the county, I am constrained to return this bill without my approval.

Very respectfully,

ROB'T B. SMITH,
Governor.

I transmit herewith a concurrent resolution passed by the Assembly of Nevada.

The subject is one which interests the people of this State and I submit the matter for your consideration.

Very respectfully,

ROB'T B. SMITH,
Governor.

The following communication was received from his Excellency, the Governor, in reference to House Bill No. 30:

Helena, Montana, February 20th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

The sole object of House Bill No. 30 is to create the office of County Auditor in fourth class counties; otherwise the law is exactly as it stands to-day. If the act contemplated abolishing the office in second and third class counties, I would approve the bill. Creating more offices means more taxes. I cannot lend my consent to such conditions, unless the office is imperatively demanded.

Believing as I do that fourth class counties do not need a county auditor, I must return this bill without my approval.

Very respectfully,

ROB'T B. SMITH,
Governor.

Thereupon the roll was called upon the question, "Shall the bill pass, notwithstanding the Governor's veto?" with the following result:

Absent—McLaughlin, Moran, O'Brien and Parker—4.

CLIFFORD,
Chairman.

The report was adopted and House Bill No. 175 was referred to the Printing Committee.

The Select Committee, appointed in pursuance of a resolution, to investigate the Montana Stock Growing Association and the office of the Brand Recorder, made the following majority and minority report, accompanied with the full resolution:

Helena, Montana, February 21st, 1899.

Mr. Speaker:

We, your committee, appointed in pursuance of a resolution calling for an "investigation of the Montana Stock Growers' Association and the office of the Brand Recorder," respectfully beg leave to offer the following report:

We find that, in accord with law, the Secretary of the Board of Stock Commissioners is likewise Recorder of Marks and Brands, and we further find that in order to facilitate the transaction of business pertaining to the live stock interests, and particularly for the enforcement of the stock laws of the State, that the Montana Stock Growers' Association elects the Secretary of the Board to serve also as their Secretary-Treasurer, a wise and economical plan, in our estimation; and while it is the opinion of your committee that a legislative body has no authority for examining into the affairs of a civil association, yet as every facility has been afforded us by the officers of the Montana Stock Growers' Association to pursue this investigation, we have been free to examine such records and witnesses as were necessary to determine the condition of the office and the methods employed in conducting its affairs.

With Reference to the Recorder of Marks and Brands, we find that the law governing the use of brands is of necessity strict, in order to avoid infringements and conflicts between recorded brands, and because of such law, and the large number of brands already recorded, it is becoming very difficult to find available brands for record. This, however, is no fault of the Recorder or his deputy, and we desire to commend these officers for their efforts to assist stockmen in procuring suitable brands, as we are satisfied that without this accommodation on the part of this office applications for

brands would of necessity remain unsatisfied, which would work a hardship and possible loss.

In our investigation of the office of the Board of Stock Commissioners, we find that they are performing their duties and conducting their affairs in perfect accord with law and are doing all in their power to enforce the stock laws of the State and protect and encourage the live stock interests. This Board, which is appointed by the Governor, consists of one stockman from each county, and we believe the Board ably represents the stock industry, in all of its phases. This Board comprises members, some of whom are owners of large herds, while others are owners of very small herds; some are Association members, while others are not, and we are satisfied it is a representative and impartial Board, well calculated to accomplish the purpose for which it was created—to exercise supervision over the stock industry with a view to fostering and protecting it. The annual report to the Governor, made by this Board, is a synopsis of its transactions and an able and interesting document.

As stated in that report, the tax levy for the Stock Inspector and Detective Fund has proven insufficient to meet the requirements, and as the statute prohibits the Board from incurring any expense over and above its ability to pay, financial embarrassment would ensue but for the liberal action of the Montana Stock Growers' Association in annually assisting the Board with a fund, which is placed with the Board in trust, to be expended under the special direction of the Board for the maintenance of the inspection system and the prosecution of stock thieves. This fund, being merely held in trust by the Board, and in reality the property of the Association, your committee did not feel authorized to investigate it further than to ascertain the source from which it came, the amount on hand, and the purposes for which it is expended, and with this information we can only speak in terms of highest commendation of the moral and financial support accorded the Board by the Association, which admits of such an extension of the work of the Board.

In regard to the Montana Stock Growers' Association, as stated hereinbefore, your committee, finding this association a civil organization, and not a State institution, are of the opinion that no authority exists for any investigation of its affairs. However, inasmuch as no effort is made to conceal its business methods or to prevent the public from inspecting any of its records at will, we have made some inquiry into its affairs, merely to satisfy ourselves and this legislative body that it is conducted in a legitimate manner, and for the protection of the stock interests generally. We find its membership comprising some three hundred and fifty stockmen, representing all sections of the State. Of this number, about 20 per cent. are what might be termed "large owners," while the remaining 80 per cent represent owners of small herds, consequently it is actually conducted more in the interests of the smaller owners, and not to their detriment, as has been charged. The large herds are fast disappearing from the State and in their place the

country is settling up with stockmen, conducting business on a small scale, and the Association membership is being rapidly increased by the enrollment of this class of stockmen. An examination of the by-laws reveals the fact that any honest stockman may become a member, and we are satisfied almost all reliable stockmen have availed themselves of the opportunity, or are preparing to do so.

We find that almost every shipper of live stock is an Association member, and that the inspection system at the markets was inaugurated at the solicitation of the Association for the purpose of securing protection for the smaller owners, which could not in any other manner be accomplished. Your committee was unanimous in the opinion that the Association was of untold benefit to the stock interests of the State in every way, and that an absence of such organization would very speedily afford opportunity for the lawless element to drive legitimate stock raisers from the business.

Furthermore, we are satisfied that neither the Board nor the Association discriminates in any particular between members of the Association and non-members in matters of equity, and we are well satisfied that all of the Association affairs are conducted impartially and solely for the best interests of the stock industry in general.

We have ascertained that certain localities of this State have been settled largely by outlaws and cattle rustlers from the more Southern States, from which they have been driven out by the enactment of stringent laws, and while we disclaim any intention whatsoever to offer any criticism, or cast any reflection upon the resolution or its author, we are of the opinion that the resolute stand taken by the Board and Association for the enforcement of the stock laws and the prosecution of rustlers has provoked such pressure from the lawless element as to bring about the introduction of the resolution requesting the investigation which your committee has just finished.

We also find that the testimony introduced before this committee is only partially and imperfectly reported, and that the transcript of such testimony being incomplete, is unreliable either as a guide toward formulating a report or for presentation as an exhibit in connection with a report. The stenographer is unable to swear to the correctness of the report of the testimony and admits its incompleteness, consequently it is valueless, either as an exhibit of an appendix to our report.

In conclusion we desire to state that both Secretary Preuit and Assistant Secretary Smith have rendered every assistance in their power in this investigation, and we are satisfied they are both performing their whole duty.

All of which is respectfully submitted,

E. P. WOODS,

P. H. LUDDY,

J. I. PHELPS,

G. F. INGERSOLL,

Committee.

Helena, Montana, February 23d, 1899.

Mr. Speaker:

We, your committee appointed in pursuance of a resolution calling for an investigation of the Montana Stockgrowers' Association and Recorder of Brands, respectfully beg leave to offer the following minority report:

As it is necessary to refer to the State Board of Stock Commissioners, and also to the Montana Stock Growers' Association in this report, one being a State institution and the other a private association, it is very necessary that one should be careful to distinguish between the two in all matters covered by this report, and the testimony which is referred to.

It was stated before the Agricultural and Stockgrowers' Committee of this House, on the floor of this House, and since this committee was appointed, that the stockgrowers of this State with small holdings had no reason to complain, and are not discriminated against by the Montana Stock Growers' Association or the State Board of Stock Commissioners. And as evidence of this fact, it has been stated several times that if this feeling or fact existed, that the State Board of Stock Commissioners would have heard of it, and no complaint has ever reached the ears of the State Board of Stock Commissioners. The evidence before your committee shows that all members of the State Board of Stock Commissioners are also members of the Executive Committee of the Montana Stockgrowers' Association, with one exception, caused by the death of one of the members of the State Board, and consequently the Stock Association are hardly to blame for this exception to the rule, and your committee believes that the error will be corrected at their next spring meeting. It is generally conceded, we believe, that the business men of this State are no fools, and we know of no reason why a number of the stockmen should be considered idiots. And this may in some way account for the State Board of Stock Commissioners never having had complaints laid before them, as it could only result in the State Board of Stock Commissioners meeting with their Secretary to solemnly investigate themselves and their Secretary. Your Committee also finds that the State Board and their Secretary, who is also Recorder of Brands, occupy the same office with the Stockgrowers' Association, with the same gentleman as their Secretary, and that the Stockgrowers' Association is a secret organization, Section 11 of the by-laws of said Association reading as follows:

"Any member who shall divulge the proceedings of, or action taken in any meeting of the Association to any person or persons, or do any act calculated to, or that may injure or defeat any proceedings or actions of this association, or officers thereof, that may be instituted for the purpose of its protection, or that of any of its members, under the laws of this state, or these by-laws, resolutions and regulations, or that may be subversive of the interests generally of the association, shall have a fair and impartial hearing at a special meeting called for that purpose, or at the annual meeting, and if found guilty by a majority of the members present, shall be expelled."

Your committee finds that the inspectors of the State Board who are

State officials, have turned into the Treasury of this secret organization \$626,000 taken from the stockgrowers of this State in the past year, whether members or not of the secret association, and that all reports emanating from these inspectors who are State officers, and paid from the State funds, become the property of this secret organization as soon as they are written.

On page 4 of the annual report of the State Board of Stock Commissioners is found the statement: "With the limited amount of revenue at its disposal, the Board cannot maintain inspectors in every locality, and it is for this reason that every encouragement is given the stockmen toward appointing inspectors 'without pay,' as this renders very material assistance to the Board in carrying out this work."

On page 10 are figures taken from the State Treasurer's books, showing that the balance in the Stock Inspector and Detective fund on January 1st, 1898, was \$13,553.63. Received during the year from the different counties, \$20,079.76. Warrants paid during the year, \$14,508.33. Balance in the fund January 1st, 1899, \$19,125, showing an increase in balance the past year of \$5,571.43. This is a direct contradiction of the statement on page 4 as quoted, that the State Board is unable to maintain inspectors at other necessary points on account of limited funds. And the evidence introduced shows that the inspectors appointed "without pay" are being encouraged by the State Board simply means that the State Board encourages stockmen and combinations of stockmen with large holdings to employ and pay men to further their own interests, and that the State Board does not pay them but leaves that with their employers, and the State Board clothes these men with power to act as State officers, and the State Board deems that they are not responsible for their action. It is well known that the evidence of these inspectors is accepted in all of our courts where the ownership of stock is disputed in the Courts, but the evidence before your committee shows that it is considered of no effect or value in determining the ownership of stock claims coming up before the State Board or Stock Association. In other words, the State Board or Stock Association can use these private inspectors when they need them for prosecuting cases in our courts, but the same men cannot be used by others for the same purpose, when claiming property in the hands of the State Board or Stock Association, the Stock Association or State Board really acting as a court of final judgment.

On page 9 of the same report it is stated that the State Board has received from North Dakota stockmen \$900 for services rendered by their inspectors at Chicago, and \$12,619.97 from the Stock Association, but there is no accounting made for the expenditure of this \$13,519.97. Evidence produced before your committee shows that there has been other money received by the State Board from other sources which no mention has been made of in their report, nor no accounting made of the same. That the State Board keeps a bank account with the Montana National Bank, balance on hand January 1st, 1899, \$5,722.09, and this does not represent what they have not expended during the year of this \$12,619.97, and other money received from

other sources as the evidence shows; that the State Board also has other balances in other banks. Your committee was told that this was a secret fund and that your committee nor the State Auditor had any business to inquire into the matter. In other words, this State has State officers handling large sums of money, which are kept in secret bank accounts, paid out in a secret manner, and our State Auditor is not allowed to audit these accounts.

On page 5 of the same report is found the following: "Proceeds of all unknown strays are sent to the Montana Stockgrowers' Association, where, by means of the record of marks and brands, the owners are located and proceeds remitted to them; in case brands are on record, no difficulty is experienced in this direction, but it is not always easy to locate owners of stock bearing unrecorded brands; however, stockmen generally are recognizing the necessity of using brands that are recorded, and all this trouble is fast being overcome."

The evidence produced before your Committee shows that actually proceeds of all strays are sent to the Montana Stockgrowers' Association, and by them disposed of as they see fit.

On page 6 of the same report it is stated that 16,058 head of strays were recovered by their inspectors, aggregating \$625,000 in value. Of this number 5,710 head, aggregating \$227,943.90 in value, was paid to owners through the Montana Stockgrowers' Association. What has become of the balance, 10,348 head, aggregating \$398,057.10 in value, which according to the report was dispersed by the State Board and by the evidence was never in their hands, but turned over to the Stock Association by order of the State Inspectors. The evidence shows that the tabulated statement at the bottom of page 6 was taken from the books of the Montana Stockgrowers' Association. This being the case, the State Association the past year has received the proceeds from 16,058 head, valued according to the State Board at \$626,000, and according to the Stock Association books they have only received \$227,943.90 for the same number of head and disbursed the same amount, according to the State Board account. Again I ask, what has become of the difference, \$398,056.10?

All through this report, the Secretary of the State Board of Stock Commissioners throws bouquets at the executive committee of the Montana Stockgrowers' Association, for its handsome treatment of the State Board, its aiding them with \$12,619.17, which is held in a secret fund and only expended as they advise. But it strikes the minority of your committee that this is entirely uncalled for, when it is taken into consideration that the State Board, through its inspectors, has turned into the Treasury of the Montana Stockgrowers' Association \$625,000, of which only \$227,943 has been disbursed or accounted for, and we believe the generosity of the Stock Association is overestimated for having contributed \$12,619.97 to the State Board under the conditions named. But we are led to presume that at the coming spring meeting of the Montana Stockgrowers' Association, their Secretary, in delivering his annual report will throw bouquets at the selfsame men who will then pose as the State Board of Stock Commissioners.

The report of the State Board of Stock Commissioners would lead one to suppose that it is a check on the Stock Association, and we believe it was so intended by the law, and a Board that any stockman could appeal to, in case he feels aggrieved at any action taken by the Stock Association, but the evidence shows conclusively that this is not the case, and the Board has actually only met once during the past year. We believe that the annual report of the State Board is only a compilation from the Stock Association's books of such matter and figures as the Association sees fit to submit to the Governor and the general public. And that is so well done that it is a delusion and a snare, and in direct violation of Section 2957 of the Political Code, which reads as follows:

"2957. The Board must make an annual report in writing to the Governor on the 31st day of December, and must state therein all the transactions of the Board for the previous year."

In the evidence the Secretary of the State Board says that they no longer inspect cattle at the point of shipment, and acknowledges that there is no way of checking the actions of the inspectors in Chicago, and that any action that they take in regard to ownership of stock is considered final. This means that the State of Montana has two officers in Chicago, who last year had passed through their hands \$626,000 belonging to the resident taxpayers of this State, which they take without the owners' permission, and nearly always when the owner is not present, and these inspectors virtually decide ownership and account to no one for their actions, which is considered final. In the opinion of your committee, if some halt is not called, it will not be long before the home builders of our State will be barred from the Chicago market or forced to move out of our State. The wonder to me is that more are not driven to becoming cattle thieves, as from what I know I can see no way by which they can prevent the loss of stock and home.

Your committee is convinced that there are some big niggers in the fence, and the chairman had hold of a leg several times, but he was not strong enough to drag the cuss out into daylight with the other four members sitting on his body.

The evidence shows that the Recorder of Brands collects a fee of \$2 for each brand recorded and each transfer made, and claims this right under Section 2955 of the Political Code. We deem that this section confers no such powers and that the collection of the \$2 fee is in direct violation of section 2954. The evidence also shows that the State Board and the Association work together in all matters and occupy the same office, and seem to have their records mixed together. The Secretary of the State Board stated that the Board acted on all matters, but there was but one meeting of the Board in the year 1898, consequently the Secretary is virtually the Board. The Secretary of the Board also guesses that the ownership of the strays is left for the Association to decide, and not the State Board. Your committee does not believe that the inspectors, the State Board, the Association, nor any Secretary have authority to decide the rights of property, and

the laws of no state authorize such proceedings as witness speaks of, as instituted by inspectors.

Your committee also finds that there are brands on record in the Recorder of Brand's office that are in direct violation of the laws, and that no attempt has ever been made to suppress such brands.

The minority of your committee regret that it has not more time to investigate these matters and others that are not touched upon, and also that the stenographer was unable to make a complete report of what was done in the committee, as the chairman alone cared to investigate and was such a small minority that he was unable to keep the other members from all talking at once, and the last day's proceedings were conducted without the witnesses being sworn, owing to the action of the majority of the committee.

The correspondence submitted with this report is done simply to show the vacillating methods adopted by the Stock Association where ownership of an animal is in dispute.

The minority of your committee also wishes to express his regrets that he was unable to disabuse the minds of the other members and Secretary Preuitt that this investigation was not brought about through any personal feeling against Mr. Preuitt, or to push the claim of any one who happened to have money taken by the inspectors and handed over to the Association, and which they were unable to recover.

They would not believe that this investigation was meant to be on broader lines, and to expose abuses that so existed, and by so doing benefit all honest stockmen in the State of Montana. It is the belief of your committee that immediate steps should be taken to prevent further violation of our laws and the unjust treatment that is being accorded to the stockmen of the state who are small holders.

It is the belief of this committee that a copy of this report and accompanying testimony should be filed in the office of the Governor, Attorney General, State Treasurer, State Auditor and State Examiner, and that the Governor should be requested to remove from office the present State Board of Stock Commissioners, and in appointing a new board, to endeavor to fill the vacancies so that not more than one-third of the board shall consist of officers or members of any Association of a secret nature, one third from the stockmen owning less than four hundred head of cattle, and the balance from the business men of the State of good standing and reputation, and that the Attorney General should be requested to take immediate steps to force the Stock Association to turn into the State Treasury all funds in their hands received from State officers, both inspectors and others, and to account to the State for all money received in the same way for the past three years. And we recommend that a bill be introduced in this legislative body, requiring that all rules and regulations formulated by the State Board should be passed upon by the Attorney General, and published for the benefit of the stock-

growers of the State. We also urge that the Recorder of Brands should at once be made to deliver to the State Auditor a full and complete statement of all fees collected by him during the year 1898.

J. L. TRUSCOTT,
Chairman.

It being apparent to us, as a committee appointed under the Truscott resolution to investigate the records of the Board of Stock Commissioners and Recorder of Marks and Brands, that said resolution was prompted by malice for the purpose of operating against the live stock industry and in the interests of the rustling element, and that the evidence introduced before this committee was only partially and imperfectly reported by the stenographer, and is therefore unreliable as a guide for formulating a report or for presentation as an exhibit in connection with a report, I therefore move that the entire report of the stenographer be stricken out and a report made to the House in accordance with the evidence that was introduced, and that no report of the testimony or any exhibits of any sort be attached to any report that may be made to the House, because of the incompleteness of the stenographic report of the proceedings of the committee.

MESSAGES FROM THE GOVERNOR.

The following communications were received from his Excellency, the Governor:

February 24th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

I have the honor to inform you that I have this day approved and signed the following bills:

House Bill No. 43, being an act entitled "An act to provide an assistant for the Register of the State Land Office, to fix the salary thereof, and designate the fund from which he shall be paid," and

Sub. No. 1 for House Bill No. 36, being an act entitled "An act to permit foreign surety companies, to do business in this State, and regulating the method thereof."

Very respectfully,

ROB'T B. SMITH,
Governor.

February 27th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

The Supreme Court this morning decided that the two constitutional amendments, voted upon last fall, had not been legally passed by the Legislature. I suggest that you take immediate action to re-submit the same amendments.

I also desire to again call your attention to the School of Mines bonds. The bill as passed two years ago inadvertently repealed the interest on the warrants. These warrants are held by citizens of Butte and are drawing no interest. I suggest you reduce the interest on these bonds to 4 per cent. and authorize the State Treasurer to invest a part of the permanent school fund in such bonds. The income from the grant will pay 4 per cent on the bonds and we can then take up the warrants.

Respectfully,

ROB'T B. SMITH,
Governor.

That portion relating to the constitutional amendments was referred to the Committee on Privileges and Elections, and that portion relating to the

School of Mines bonds was referred to the Committee on State Institutions, Public Buildings and Grounds.

Respectfully,

ROB'T B. SMITH,
Governor.

February 28th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

I sincerely wish it were possible for me to agree with you in the passage of House Bill No. 132. I dislike exceedingly to place my judgment and opinion in opposition to what seems to be such a unanimous judgment of this body. But in the discharge of official duty there ought to be but one guide, and that should be the constitution and the law as revealed to us by calm and unbiased study.

In my humble judgment no measure was ever presented to a legislature more fraught with evil to a people or more obnoxious to a constitution than this bill. The very reasons which actuated the introduction of this bill are dangerous to our institutions and our liberties. These reasons are as follows:

First. The Boston and Montana Copper and Silver Mining Company, a corporation of this State, in May last undertook to sell all its property to a New York corporation and compel its stockholders to accept stock in a foreign corporation in lieu of stock held in the domestic or home corporation. Suit was brought by Forrester and MacGinniss, stockholders, to prevent such conduct, and the Supreme Court of this State, on November 28th, by a unanimous opinion, sustained the plaintiffs and ordered a reconveyance of all property to the Montana Company. The lawyers and parties defeated in that case are here trying by this bill to reverse the decision of our Supreme Court, and I am told, because I happened to be one of the attorneys for Forrester and MacGinniss, that I cannot afford to veto this bill. But when I am sustained by the unanimous opinion of our Supreme Court, and by the Constitution of our State, I can and will veto any measure that is as vicious as this bill.

The second reason for the strong following and lobby behind this bill is as follows: The Rothchilds and magnates of the Standard Oil Company, according to all reports, are now engaged in trying to form a copper trust and combine by which they expect to control the copper output of the world, and they desire to include our great copper properties in the pool. This accounts for the strong following this bill has with the corporate interests of the State. These reasons alone, without further remark, ought to be sufficient to defeat this measure before a free and independent representative body of this State.

In addition to the foregoing there are still more vital reasons for its defeat. This bill makes it possible and easy for corporations in this State to combine with any other corporation, foreign or domestic, and thus form a trust or pool. Section 20, of Article XV, of our State Constitution, reads as follows:

“No incorporation, stock company, person or association of persons in the State of Montana, shall directly or indirectly, combine or form what is known as a trust, or make any contract with any person or persons, corporations or stock company, foreign or domestic, through their stockholders, trustees, or in any manner whatever, for the purpose of fixing the price, or regulating the production of any article of commerce, or of the product of the soil, for consumption by the people. The legislative assembly shall pass laws for the enforcement thereof by adequate penalties to the extent, if necessary for that purpose, of forfeiture of their property and franchise, or in case of foreign corporations prohibiting them from carrying on business in the State.”

This bill is in direct violation of the foregoing provision of our constitution. It is not necessary that the bill should declare in its title or the body thereof that it is intended to regulate the production or the price of copper, or other article of commerce, in order to violate the provision quoted. If the bill can be used or utilized for forming a combine or trust to regulate the production of any article of commerce or production of the soil, it is obnoxious to our constitution. Can any man read this measure and say it cannot be used to form copper or mining trusts or combines, and thereby regulate the price or production of an article of commerce? The present great rise in the price of copper is largely due to the contemplated trust which is reported in the press of the country. Silver, lead, iron, copper and every other production of our mines, except gold, are “articles of commerce for consumption by the people,” and any law tending to create trusts for controlling their production or fixing the price of their products is in violation of the constitution. Instead of passing this law to foster these trusts and combines, it is your duty under the oath you have taken and under the direction of the provisions of the constitution, to pass a law forbidding and prohibiting any such effort by any corporation or company.

I wish to call your attention to the difference between your body and the Colorado Assembly now in session. The smelting and mining corporations, acting under the same impulse felt in this state, contemplated a similar move in Colorado, but Governor Thomas sent to the legislature a message asking it to pass a law prohibiting such trusts and pools, and in a very short time after his message was read, one house of that body had passed a bill in accordance with his suggestions, and he wires me that their legislature is trying to prevent a smelter trust in that state, while you, on the contrary, are trying to organize a copper trust with the Standard Oil magnates in control.

This bill further violates our constitution in this: Section 2, of Article III, provides that “no ex post facto law, nor law impairing the obligation of contracts, or making any irrevocable grant of special privileges, franchises or immunities, shall be passed by the legislative assembly.” The relation of the corporation to the state is contractual. The charter of a domestic corporation is a contract between the state and the corporation. (See Section 3031 of Thompson on Corporations.) Likewise the relation of each stockholder

to the corporation is contractual. (See Cook on Stockholders, Section 11; and Peninsular Railway Co. vs. Duncan, 28 Michigan, page 130.) The state in its constitution reserves the right to amend or alter the charter of a corporation. It may change the contract between the state and the corporation, but it cannot so change it as to impair or violate the contract which each stockholder has with the same corporation. If such change is contemplated, then such act violates the contract which each shareholder has with the corporation, and such a law is void.

Again, this proposed law violates other provisions both of our state and national constitutions. Article V, of amendments to the Constitution of the United States, says: "Nor shall private property be taken for public use without just compensation," and Section 14, of Article III, of our State Constitution, says, "private property shall not be taken or damaged for public use without compensation having been first made to, or paid into court for, the owner." You will notice that in these provisions the taking of private property for a public use is allowed under certain conditions, and the converse of this proposition is true, viz., that private property cannot be taken for a private use under any condition. Indeed, so careful were the framers of our constitution, that, in order to run a ditch or canal over the land of another, such a use is declared to be a public use. (See Section 15, Article III, of our constitution.)

This bill provides that if any stockholder dissents from the action of the majority in combining with any other corporation or trading for the stock of another corporation, a commission is appointed to appraise the value of his stock, which is his individual property, and sell it out at public auction or to the grantee of the corporation, thus taking private property and confiscating it for private purposes.

The title of this bill is deceptive. It is contended that the bill is to enable the majority stockholders to control the property and to sell or lease it, and to protect the minority stockholders. The majority stockholders, under our present law, can sell, lease, mortgage or dispose of all mining property. (See Section 1013 of the Civil Code of Montana.) Under the present law, after notice duly given, if three-fourths of all shares are represented at the meeting and two-thirds of all shares vote in favor of a sale, such sale is valid and effectual, and in the same way all the property or any part can be leased, sold, or mortgaged, and the minority cannot prevent it. The only thing a minority can prevent according to the decision of our Supreme Court, is this: a dissenting stockholder can prevent a domestic corporation from trading its stock off and accepting in payment therefor stock in a foreign corporation. That was what the Boston and Montana Company attempted to do and that is what this bill will allow all corporations to do.

This is an effort to get out from under the jurisdiction of our state courts so that corporations can carry every case into the United States courts, with the result that if a miner or employe has a claim against them he cannot sue in the state court. In our state court two-thirds of a jury can agree and find a verdict, but in the United States court a unanimous verdict is re-

quired. It is much easier for corporations to defeat a case where they have only to secure one juror to prevent a verdict against them. Again, a poor man cannot afford to litigate in the U. S. courts. It requires more money and much longer time to secure final judgment. If you pass this bill you will put it in the power of rich corporations to defeat any claims against them without any great expense. You will remove all their records from the state to the great injury of litigants and of the taxing power of the state.

It is claimed by some that this bill will tend to develop our country. I say that its tendency will be to prevent development except by a few gigantic concerns. Under the present law the poor miner or prospector organizes a company and puts a portion of his stock in the treasury and peddles it out to friends in small lots, and thus gets money to develop his mine. But if this bill becomes a law, no man will care to buy stock, unless he can have over one-third, because, if he has less, the others may compel him to sell out his stock or swap it for stock in some foreign corporation, and thus freeze him out if he objects.

There is another serious objection to this bill. Section 1 provides that a notice giving in general terms what is proposed to be done shall be published for thirty days, and a copy mailed to each stockholder calling a meeting of stockholders. But when the stockholders meet they can propose any kind of disposition of the property; they are not confined to the published notice. Suppose, for instance, the notice sent out and published shall propose a lease of the property; but when they meet, if, instead of leasing, they propose to sell or trade off the capital stock for stock in another corporation—they can do so under this act. The stockholder receiving a notice that it is proposed to lease the property might be willing to lease and pay no further attention and not attend the meeting. Those who did attend could disregard the notice and propose a sale, for the bill says that after electing a chairman and secretary, thereupon any proposition for the sale, or lease, or mortgage, or exchange, or disposition for other property, or for the whole or a part of the capital stock of any other corporation, domestic or foreign, or to otherwise dispose of the whole or any part of the mining ground, mills, smelters, or assets of any description.....may be considered and acted upon at said meeting. You will observe they are not confined to the proposition made in their notice sent out to each stockholder. Any act thus done at such meeting, no word or intimation of which was put in the published notice, may be carried through as effectually as if full notice had been given. An absent stockholder is not afterwards notified of what was done at such meeting, although it may have been against his wish; yet he must come within twenty days and dissent in writing from what was done, or he is deemed to have assented. But the advocates of this bill say the secretary has to file a statement of what was done at the meeting with the county clerk and recorder. Yes, that is true, but when does he have to file it? So far as this act is concerned, he may not have to file his certificate with the county clerk and recorder for a year, but the poor deluded stockholder must make his objection within twenty

days or forever hold his peace. Let me again appeal to you to consider what you are doing.

The haste with which this measure has been railroaded through both houses ought to be a warning that "something is rotten in Denmark." It has been rushed through under whip and spur and every corporate lobbyist is at its back. Even our national holiday, set apart for the observance by our people of the anniversary of the birth of the immortal Washington, was desecrated by the passage of this bill. That day which recalls the patriotism and devotion of Washington to the cause of his country was not a fitting day on which to pass a bill destined to serve the selfish interests of corporations and put a yoke upon our people more galling than Egyptian bondage.

I had hoped the people of Montana might be spared, at least for many years, the power of the Standard Oil magnates. They control already the lamplights of America and, by controlling the production of copper, they propose to control the electric lights of the world, as well as the electric power and the thousand other uses to which copper is applied. If they could, they would obscure the God of day and deny us daylight.

If you do not assert your manhood and independence now and defeat this measure, it will be too late when the tentacles of this octopus have fastened their fangs on the strong limbs of this fair young commonwealth. Seeing as I do the dangers in this bill, and knowing full well how vicious and unconstitutional it is, and knowing that many of you are deceived by the fair phrases in its caption, I write you thus at length to warn you of the dangers where you stand.

Instead of being entitled an act to regulate, mortgage, sell, lease or convey corporate property and protect the minority stockholders, it should be entitled "An act to reverse the supreme court, and to encourage and facilitate the formation of trusts and combines, and to legalize the confiscation of private property for private uses in the State of Montana."

For the reasons set forth in this message, I must refuse to give this bill my approval.

Very respectfully,

ROB'T B. SMITH,
Governor.

The communications received were placed on file and ordered spread at length on the Journal of the House.

MESSAGES FROM THE GOVERNOR.

The following communication was received from his excellency the Governor:

February 28th, 1899.

Mr. Speaker and Gentlemen of the House of Representatives:

House Bill No. 124 is the hand maiden of House Bill 132. Both are being engineered by the same parties and both are intended for the same purpose, and that is to give the wealthy and strong undue advantage over the weaker.

If this bill only gave a right of appeal from a final judgment, or from an order granting or refusing to grant a new trial, or granting or dissolving an injunction, or refusing to grant or dissolve an injunction, or granting or dissolving or refusing to dissolve an attachment, or from an order appointing or refusing to appoint a receiver, I would sign it willingly. But what follows after that is the objectionable part, viz., "or giving directions with respect to a receivership." If this measure becomes a law, it practically repeals the authority of the district court to control property in its hands.

A receiver is the agent and officer of the court and he acts under the instruction and direction of the court and gives bond for the faithful performance of his duty and the protection of all parties interested. But if this bill becomes a law the district court cannot order the receiver to take charge of

the property, or collect debts, or compel an accounting, or pay out any money or hire any person to do any work for the property in his charge or pay taxes on the property. In fact no order or direction can be given by the court to the receiver without the same can be appealed from and the case brought to the Supreme Court, and the whole matter stayed until the Supreme Court can hear it. The passage of this law would destroy the efficacy of a receiver in any case and would entail endless litigation, to such an extent that none but wealthy people could afford to go to court to maintain their rights.

The old law of appeal has been sufficient to suit all lawyers and litigants in this state for over thirty years, and no one found fault until the Boston and Montana Company were defeated in the Supreme Court, and now they must reverse it by an act of the legislature. Lawyers and parties who come to you to reverse the Supreme Court should be turned out of the doors of the assembly. It is an unfair way to try lawsuits, and if you countenance such procedure, every litigant defeated in the court will seek redress in the legislature.

For these reasons I cannot give my assent to the passage of this act.

Very respectfully,

ROB'T B. SMITH,
Governor.

PAUL,

The following majority and minority reports were received and read:

Helena, Montana, March 2nd, 1899

Mr. Speaker:

Your Committee on Federal Relations report that they have considered Senate Joint Memorial No. 7, and recommend that it be concurred in.

STAPLETON,
Chairman.

Helena, Montana, March 2nd, 1899.

Mr. Speaker:

As a member of the Committee on Federal Relations, to whom was referred Senate Joint Memorial No. 7, introduced by Cullen, I am unable to agree with the majority report of the committee. The first portion of the memorial is clearly vague and indefinite as to what part of our country's history is referred to in the words "past financial condition thousands of able and energetic men throughout the United States." I certainly know of no period so deplorable as that ever memorable time from March 4th, '93, to March 4th, '97, when Grover Cleveland and a democratic administration held the reins of government and spread over this fair land, to every vale and hamlet, the withering blight of democratic free trade fallacies.

Has the honorable Senator from Dawson who introduced this memorial forgotten the never-to-be-forgotten time in the summer of '94 when the Montana contingent of Coxy's army created such excitement on the division of the N. P. R. R. over which the honorable Senator runs as conductor from Billings to Glendive? or has he been visiting with that rank anarchistic demagogue Altgeld of Illinois?

In contrast to that epoch of misery and ruin to thousands upon thousands of our citizens, I point with pride and without fear of successful contradiction to the present financial prosperity of our country, and to the millions who find ready and remunerative employment in every trade and industry. I maintain, sir, that large corporations, individuals, capitalists, tradesmen and laborers all require and demand that the existing gold standard is necessary to uphold the financial integrity of our country before the world, until silver can by international agreement of the great civilized nations of the earth be restored to monetary circulation at some fixed ratio which together those nations can and will maintain.

I protest against this Sixth Legislative Assembly of Montana memorializing the United States Congress in any such idiotic manner as suggested by this memorial, which will only make the people of this state conspicuous as upholding a policy condemned to-day by four-fifths of the votes of these United States. Stain enough has already been cast upon our escutcheon by this assembly without thus advertising to the world for more political odium.

HEDGES.

Stapleton moved the adoption of the majority report. Lindsay moved as a substitute the adoption of the minority report.

The question occurred on the adoption of the minority report, which motion was lost by the following vote:

Ayes 10, noes 52, absent 8.
